

## EXPERT cutter

### EXPERT carbide cutter Ø 68 mm with countersink hole cutter, holder, centering drill

- Carbide tipped cutter head and countersink hole cutter
- extremely powerful
- very long operating life
- Removable countersink hole cutter
- fits all electric drills with 13 mm chuck

<b>Article no:</b>	<b>1082-30</b>
EAN:	4013456587786
Cut hole Ø	68 mm
Depth of cutting hole	35 mm
with countersink hole cutter and ejector spring	Yes
Dispatch	10

The new EXPERT cutter is the ideal tool for creating installation openings in drywalls with increased requirements. Carbide teeth enable use in hard materials and guarantee maximum operating life. The high dimensional accuracy guarantees precise and professional installation of KAISER boxes.

- longest service life due to carbide teeth
- Faster installation thanks to reliable drilled core ejection
- With holder, centring drill, countersink hole cutter and drilled core ejector
- Cutting diameter 68 mm and 74 mm
- Multifunctional use in almost all board materials
- Unique triangular-round cutter geometry for maximum hole precision
