

EXPERT cutter

EXPERT carbide cutter head Ø 68 mm with ejector spring

- carbide tipped
- extremely powerful
- very long operating life

Article no:	1082-31
EAN:	4013456587847
Cut hole Ø	68 mm
Depth of cutting hole	35 mm
with ejector spring	Yes
Dispatch	5

The new EXPERT cutter is the ideal tool for creating installation openings in drywalls with increased requirements. Carbide teeth enable use in hard materials and guarantee maximum operating life. The high dimensional accuracy guarantees precise and professional installation of KAISER boxes.

- longest service life due to carbide teeth
- Faster installation thanks to reliable drilled core ejection
- With holder, centring drill, countersink hole cutter and drilled core ejector
- Cutting diameter 68 mm and 74 mm
- Multifunctional use in almost all board materials
- Unique triangular-round cutter geometry for maximum hole precision
