

SPECIAL cutter for insulating boards

SPECIAL cutter ETICS Ø 20 x 80 mm

- Making installation openings in existing composite thermal insulation systems or lightweight walls
- Ø 20 mm, for the KAISER mini equipment carrier and for KAISER cable seals
- with depth stop to prevent heat bridges
- with hardened metal centering drill for precise positioning
- fits all battery-powered drills and electric drills with 10 mm chuck
- removable cutter head for easy removal of the drilled core

Article no:	1088-06
EAN:	4013456536142
Length	80 mm
Drill Ø	20 mm
Cutting depth	max. 60 mm
Dispatch	48

Retrofitting electrical connections to an already completed, insulated facade is a challenge. The SPECIAL cutters can be used to create installation openings without weakening the external composite thermal insulation system, as insulation is only removed at certain points.

- with depth stop to prevent heat bridges
- Hardened metal teeth enable use even with plastering
- easy removal of the drilled core
