The B¹ Prefix® system wing allows fast, easy fixing to the reinforcement. This means optimal installation on the opposing formwork side and for free-standing reinforcement, and also for sliding or travelling formwork constructions. All wall applications in the new B¹ range have slots for the locking of two Prefix® system wings. This ensures fast, easy installation on the opposing formwork side.

- · Fast and easy installation on opposing formwork without support element and abutment
- Holding in place using the Prefix® installation technology leaves both hands free for securing with tie wires
- · A pronounced corrugated profile and additional fixing opportunities for secure fixing using tie wires
- · Combinable when using wall and ceiling transitions
- $\cdot\,$ For installation in exposed concrete, pressed against the front formwork
- · Suitable for 20 60 mm concrete covers
