The large slab ceiling box is suitable for in-factory installation in prefabricated ceilings. The version with a slot for the system magnet (Art. No. 1299-69) or system magnet PLUS (Art. No. 1299-70) is ideally suited for quick attachment to system magnets that have already been set automatically. The large slab ceiling boxes are already a part of the ceiling when they reach the construction site and enable the quick insertion of empty conduits. The resealable quick-release cover can be opened with a quarter turn and so enables the quick and exact creation of conduit entries using punch pliers (Art. No. 1286-33/-34).

- · For in-factory installation
- · Slot for system magnet (Art.-No. 1299-69) and system magnet PLUS (Art.-No. 1299-70)
- · Large adhesive area with rough surface structure for a secure fit on the formwork table
- · 115-mm installation height guarantees optimal transport conditions for prefabricated ceilings
- $\cdot\,$ Quick-release cover for fast cutting of conduit entries using punch pliers
- $\cdot\,$ Integrated M5 domed cap nut ensures secure fitting of a light hook.
- \cdot With closing cover for on-site fitting of conduits
