

Installation housing ThermoX® LED

ThermoX® LED housing

- for rigid and pivoting LED luminaires
- circumferential airtight sealing lip
- Swivel trough for alignment of the luminaire

Article no:	9320-21
EAN:	4013456545717
Depth	95 mm
installation from front, cut hole Ø	86 mm
Cable entries	3
max. installation depth for the LED luminaires	85 mm
max. lamp output	10 Watt
max. ceiling exit (DA) Ø	81 mm
Dispatch	10

ThermoX® LED installation housing for the airtight installation of rigid and pivoting LED built-in luminaires in different ceiling constructions. The housing protects the surrounding material (vapour barrier foil, insulation etc.) against the high operating temperatures and the LED luminaires themselves from contamination, and creates an airtight separation. In combination with the thermal separation between luminaire and operating device, in this way a maximum operating lifetime is obtained.

- For installation in insulated hollow ceilings
- Retrofitting from underneath
- Toolless installation of the housing
- Guarantees airtight installation
- Rear surface structure ensures optimal heat management
- Permanent and secure retention of the luminaire in the housing
