| Dispatch                     | 50                |

The AK2 modular system can cover a wide range of applications, as it offers the right solution for all installation tasks. The modular system consists of a basic box, a front part and attachment accessories in numerous variants. This allows individually configured boxes to be assembled for pluggable electrical installation.
